

**AMENDMENTS TO THE DRAWINGS:**

The attached drawing sheets include amended and marked-up versions of Figure 8. Figure 8 has been amended to change several minus (-) signs to plus (+) signs.

Attachments: Marked-up version of Figure 8 at Appendix A.

Clean version of amended Figure 8 at Appendix B.

## REMARKS

Claims 1-9, 11-23 and 26-33 are pending in the application. Specification Table 3 is amended above to change a single plus sign to a minus sign. This amendment finds support in the specification. In particular, it is clear from Figure 7, where the term “0.707a1e1A” appears with a minus (“-“) sign at the top right by antenna element 122<sub>12</sub>. Additional support for this amendment is found in the specification and Figures.

Figure 8 is amended in two instances to change minus signs (“-“) to plus signs (“+”). This amendment is supported by vector diagrams (arrows indicating vectors in magnitude and direction) adjacent to the left side of the amended Figure 8 boxes, which show 0.707b1f3B being added to 0.5(a2A + b3B) and 0.707a1e3A being added to 0.5(b2B + a3A) respectively. Additional support for this amendment is found in the specification and figures.

No new matter is added to the specification by these amendments.

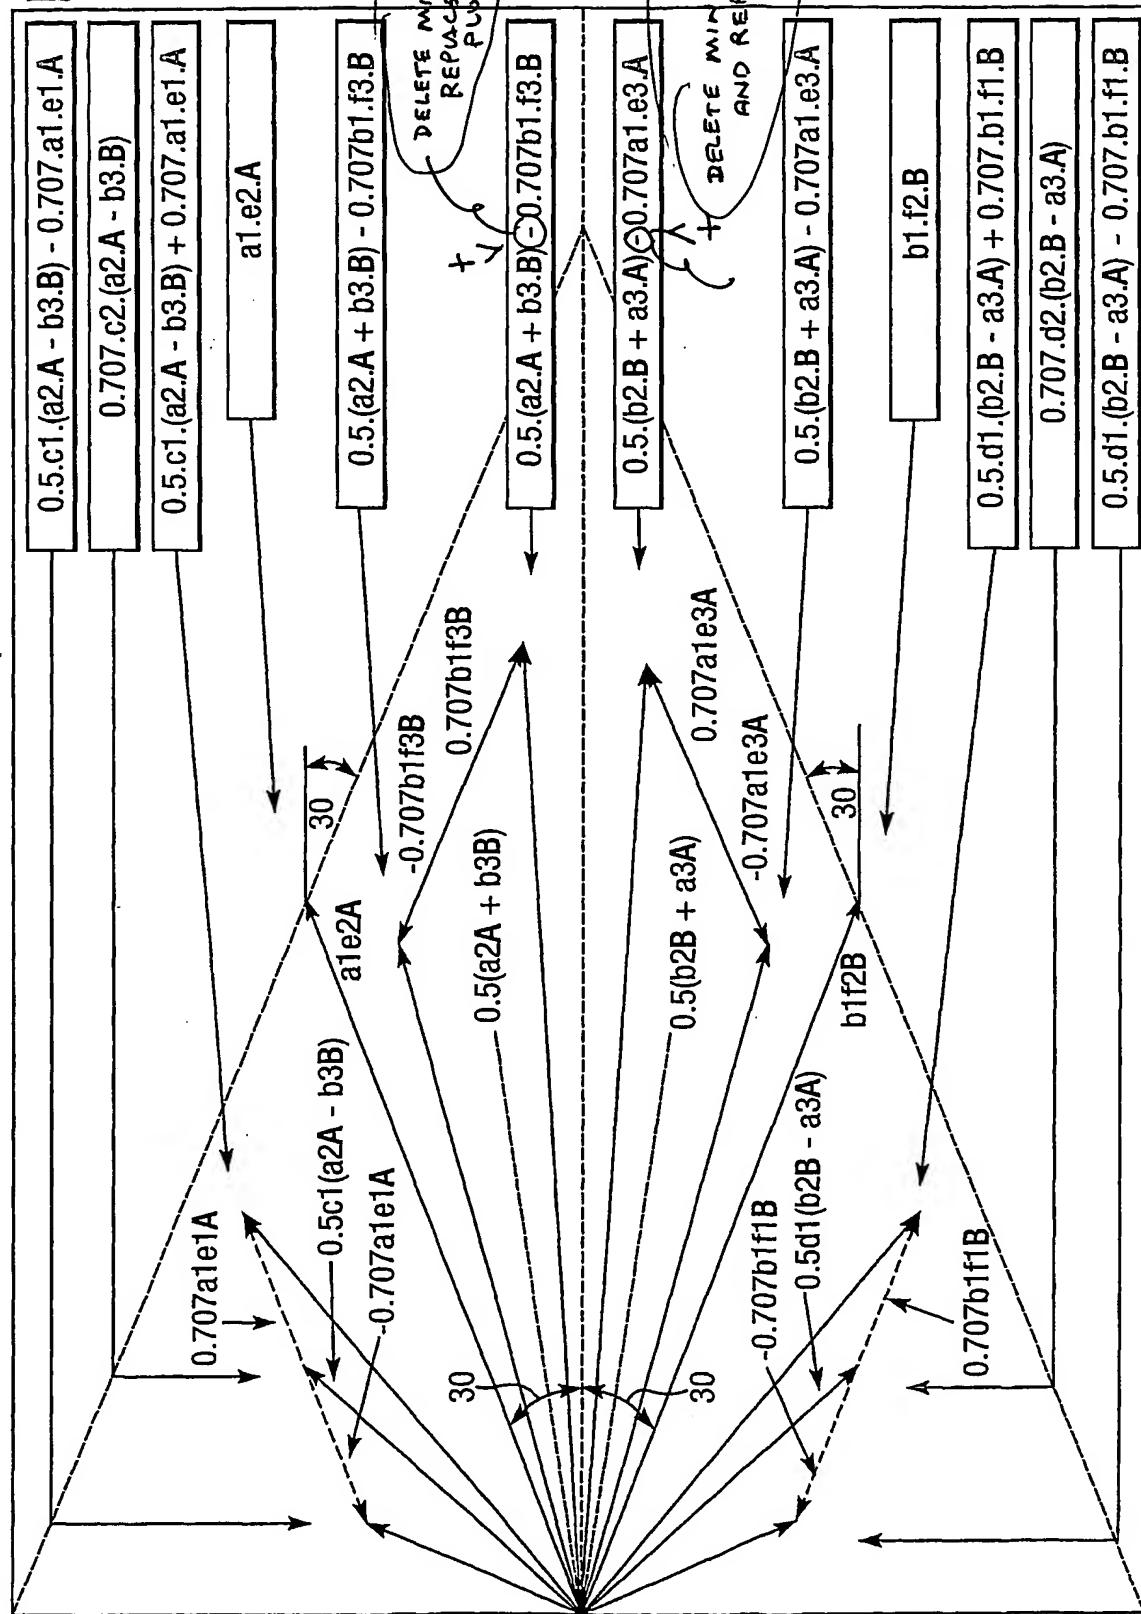

Respectfully submitted,

Date: July 7, 2006
